Cutting Instructions

|		
Side Setting Triangles	A	2 – 18 $^{1/8}$" squares
Corner Setting Triangles	B	2 – 9 $^{3/8}$" squares
Sashing	C	36 – 12 ½ x 2 ½"
Sashing posts	D	24 – 2.5" squares
Border	E	7—2.5" WOF strips
Backing		4 $^{1/8}$ yds (40" wide) 2 $^{1/8}$ yds (108" wide)
Binding		½ yard

Congratulations on finishing all your blocks! Let's get them sewn into a quilt!

Cut Square A on both diagonals to create four triangles.
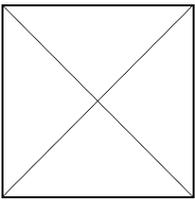

Make eight side setting triangles
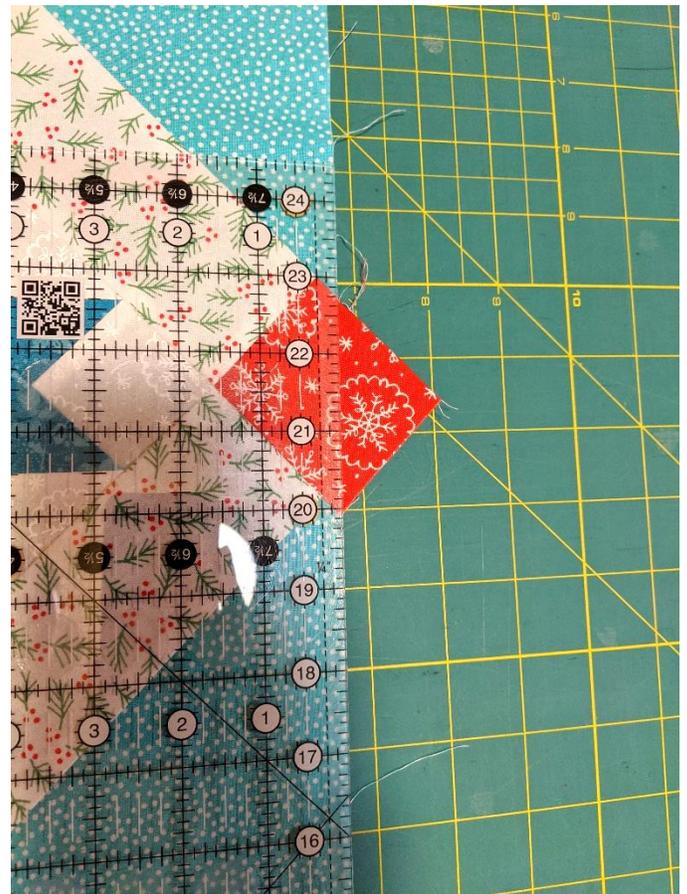

- -

Cut Square B in half on the diagonal to create two triangles.
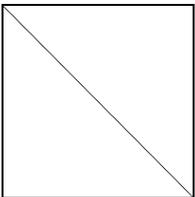

Make four corner setting triangles

- -

Referring to layout, piece together rows of quilt.
(If you press your row seams *towards* sashing strips, you'll get easy-to-nest seams when it comes time to sewing block rows to sashing post rows.)

Trim edge sashing posts to line up with straight edges of quilt.

- -

Piece all seven Fabric E strips together into a "super strip."

SIDE BORDERS

Measure quilt top from top to bottom along middle line to determine length of side borders. Cut two pieces of this measurement from pieced Fabric E "super strip."

Mark halfway point on both side edges of quilt with pins and on cut Fabric E side border strips. Then mark halfway between ends and halfway points (1/4 and ¾ points) on both with pins. Match these together and pin as needed before sewing.

TOP AND BOTTOM BORDERS

With two side borders attached and pressed, measure quilt top from side to side across the middle to determine the length of the top and bottom borders. Cut two strips of this measurement from remaining Fabric E "super strip." Attach is same manner as you did for the side borders.

Your quilt top is finished! Good job!

Quilt and bind as desired and enjoy the labors of a good year's work!

Thanks for sewing along, and enjoy your quilt!
